Understanding Health Care Reform

President Obama signed a sweeping overhaul of the health care system into law in March. The coming months will be interesting as employers work to gain a better understanding of the changes the new health care reform legislation brings. Please join us for a seminar reviewing the impact of health care reform on employer-sponsored programs. We will address what you need to consider as you incorporate health care reform into your short- and long-term health care strategy. Seminar will qualify in HR Certification for two credits.

Featured Speaker:
