Houston Gulf Coast Region*

GET IN THE PIPELINE OF A REWARDING CAREER AS A PLUMBER, PIPEFITTER OR STEAMFITTER

Plumbers, pipefitters, and steamfitters are among the largest and highest paid construction occupations. Most people are familiar with plumbers. However, taking a closer look we find that plumbers, pipefitters, and steamfitters install, maintain, and repair many different types of pipe systems that carry water, steam, air, or other liquids or gases. Work could be in a residential home, in commercial buildings, at manufacturing plants, water treatment plants, power plants, industrial manufacturing companies, and the list goes on! Plumbers, pipefitters, and steamfitters are in short supply in the Gulf Coast region as well as at the state and national level. Demand continues to grow in response to an ever-increasing population and as a growing number of baby boomers retire. The shortage of plumbers, pipefitters, and steamfitters translates into outstanding career opportunities to individuals entering into the workforce.

Factors contributing to the shortage:

- a growing population
- a workforce that is approaching retirement age
- the underrated value of vocational education

REPLACEMENT DEMAND FOR PLUMBERS, PIPEFITTERS AND STEAMFITTERS AS THEY RETIRE OR EXIT THE OCCUPATION IS GREATER THAN DEMAND DUE TO GROWTH.

PATHWAY TO BECOMING A PLUMBER, PIPEFITTER, OR STEAMFITTER

Remember, plumbers, pipefitters, and steamfitters work both indoors and out; at construction sites, in homes, and in businesses or factories. Work may be strenuous at times. Some may have to travel to jobsites. Many get paid to learn the trade through apprenticeship programs. In the Gulf Coast region, there are three options for plumber, pipefitter, and steamfitter training:

- Apprenticeship programs through unions or based on merit (non-union) — combined on-the-job training with related classroom instruction
- Training programs at community colleges
- Training programs at vocational-technical institutes
