

Microsoft Elevate America Veterans Initiative Voucher Program

Microsoft, in cooperation with the U.S. Department of Labor and local workforce areas, is proud to offer U.S. military veterans and their eligible spouses vouchers for no-cost IT skills training and certification designed to help build the technology skills needed for the job opportunities of today and the future.

Over the next two years through the Elevate America veterans initiative, vouchers will be available in five geographies across the country, where the highest concentration of U.S. military veterans currently reside, based on U.S. Department of Defense data.

In each participating location, veterans and their eligible spouses will be able to take advantage of the following resources:

- Access to basic technology literacy and skills training
- Intermediate level Microsoft Windows and Office skills training plus certification exams
 - Vouchers for select e-learning (online) courses offered by Microsoft
 - Vouchers for select Microsoft Office certification exams
- Advanced level IT Professional level skills training plus certification exams
 - Vouchers for select e-learning (online) courses offered by Microsoft
 - Vouchers for select IT Professional level certification exams

In person support will be available to assist in the successful completion of e-learning and certification. Specific details will be provided by each participating organization.

Visit www.microsoft.com/veterans to learn about additional resources you can take advantage of today including:

- No-cost and low-cost resources to support your training and job readiness needs
- Tools to translate your military occupational code into jobs at Microsoft
- Templates to design your ultimate resume
